# Word Engine **Presentation Outline**

- **TOEIC/TOEFL High frequency vocabulary**
- **WordEngine system introduction**
- **TOEIC and TOEFL Score Data Showing WordEngine Increases Test Scores**
- **How and why scores go up**

# Vocabulary - how much is enough?

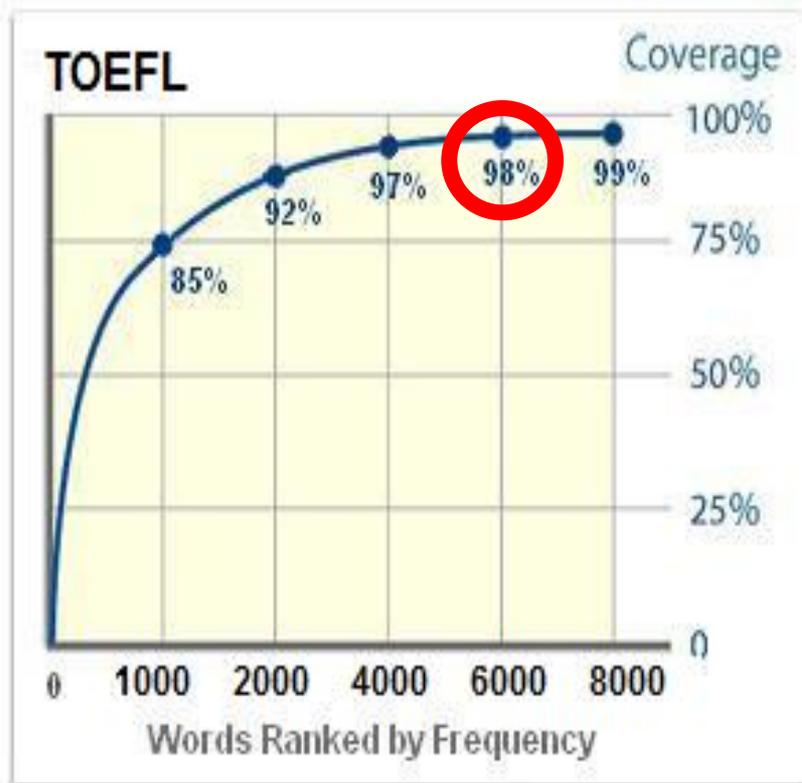

95% coverage of vocabulary is the tipping point for successful comprehension.

Laufer (1989)

**"Tipping point = more readers than non-readers at 95%."**

# Vocabulary - how much is enough?

98% coverage is needed for both adequate comprehension and to be able to guess or skip over unknown words based on context.

Hu and Nation (2000)

**“WordEngine provides 99% coverage.”**

# Word Engine

## Domain-specific HFV

Lexica identifies the specific words that cover 99% of each subject.

### All General English

13,384 words

### Business English

8,742 words

### College Entrance

5,435 words

### High School

3,552 words

### UHF Core

1,310 core words

### TOEFL

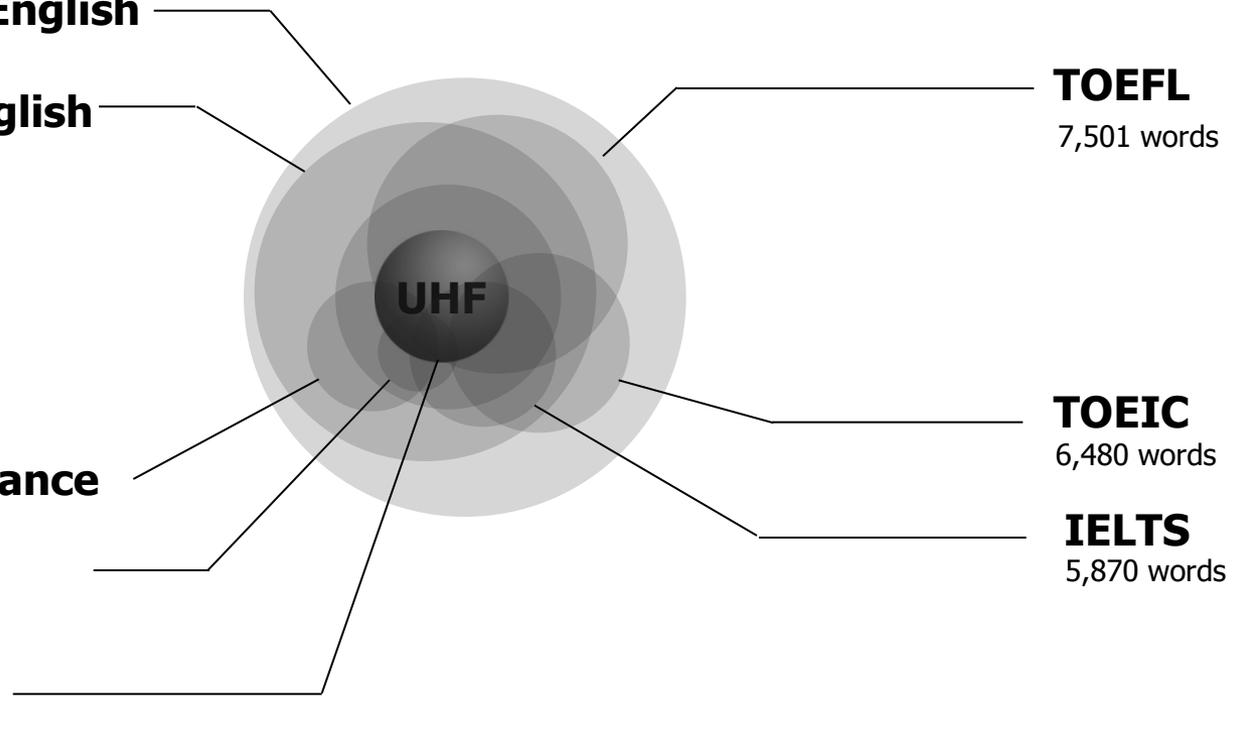

7,501 words

### TOEIC

6,480 words

### IELTS

5,870 words

**"The specific words are quite different in each domain."**

# TOEIC Corpus Analysis

1,250,000 total words

**14,652 different words**

**457 UHF** words constitute 80% of all occurrences.

**1,715 SHF** words constitute 95% of all occurrences.

**6,480 HF** words constitute 99% of all occurrences.

**“Based on scans of actual and practice tests 50/50.”**

# TOEFL Corpus Analysis

1,250,000 total words

**16,736 different words**

**655 UHF** words constitute 80% of all occurrences.

**2,875 SHF** words constitute 95% of all occurrences.

**7,501 HF** words constitute 99% of all occurrences.

**“Based on scans of actual and practice tests 50/50.”**

# Word Engine

**“Absolutely essential!”**

**TOEIC**  
**Words**  
**457**

**TOEFL**  
**Words**  
**655**

**0% to 80% = Ultra High Frequency Range**

**“1,800 to 2,300 total item occurrences in all parts of every test are words from within the Ultra High Frequency range.”**

# Word Engine

"The difference between okay and good"

**TOEIC**

**Words**

457

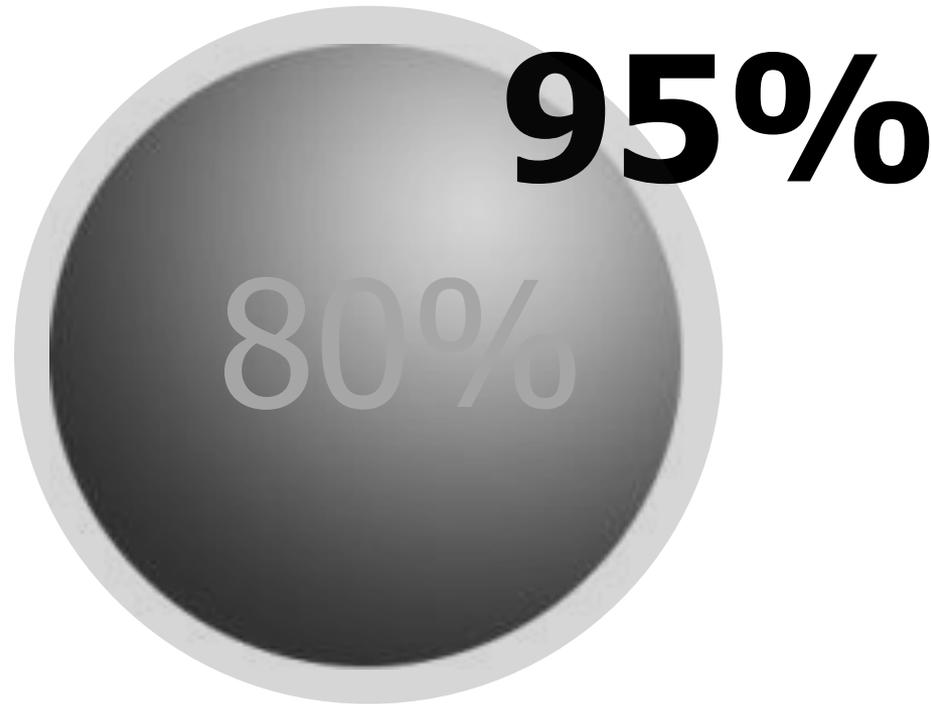

**1258**

**TOEFL**

**Words**

655

**2220**

**91% to 95% = Super High Frequency Range**

**"80 to 200 total item occurrences in all parts of every test are words from within the Super High Frequency range."**

# Word Engine

"The difference between good and great"

## TOEIC

Words

457

1258

**4765**

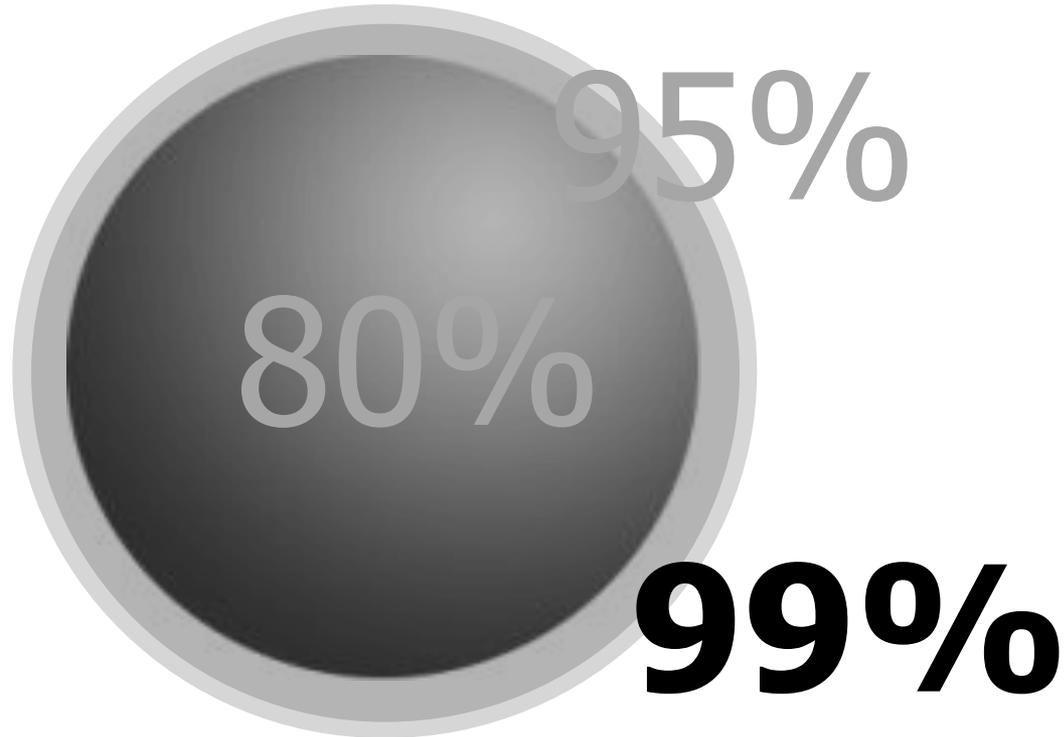

## TOEFL

Words

655

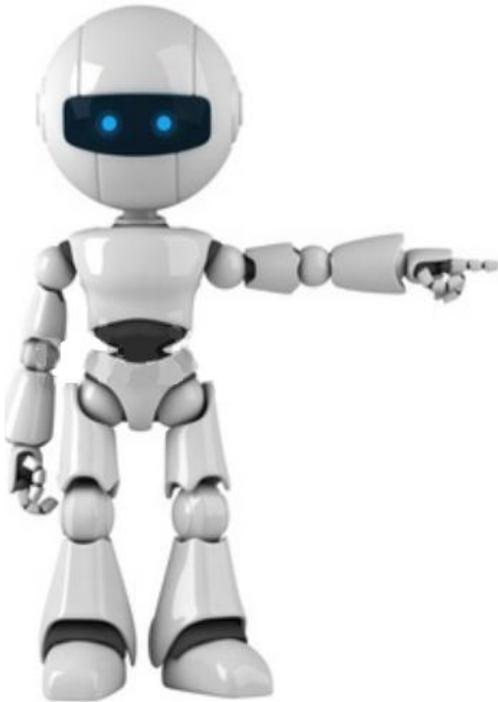

2220

**4626**

**96% to 99% = High Frequency Range**

"5 to 75 total item occurrences in all parts of every test are words from among the High Frequency range."

## ETS Secrets #2 and #3

1/3 of the SHF words in all parts of TOEIC and TOEFL are not SHF in General English.

95% of test questions are recycled.  
5% are new questions that are in the process of being measured for difficulty.

# What does it mean for learners?

EFL students can't learn the words they need because they aren't in their study and reading materials.

**“Because their materials are simplified.”**

# **ETS's advice for scoring higher on TOEIC and TOEFL is to read authentic texts.**

**"Graded readers can't help because the vocabulary is simplified."**

# How much authentic text is needed?

Based on incidence of occurrence research by Rob Waring, they'll need to read 12,500 hours of authentic text in order to meet the lower frequency test words often enough to know them.

A statistical analysis of the number of English words you need to meet (at given recurrence rates) to 'learn' that number of words

Word rank	A Percentage of general English that this word covers	B Number of running words needed to be met to meet all these words once	C (= 100 / B)				D (= x times C)				E (= D / Book length)			
			Volume of text you need to read to meet the words at these recurrence rates				Number of books to cover this volume given these recurrence rates							
			5 times	10 times	20 times	50 times	Book length	5 times	10 times	20 times	50 times			
1 <sup>st</sup> most frequent ( <i>the</i> )	5.83898%	17 (1)	86	171	343	856	4,500	0.0	0.0	0.1	0.2			
2 <sup>nd</sup> most frequent ( <i>be</i> )	5.12332%	20	98	195	390	976	4,500	0.0	0.0	0.1	0.2			
25 <sup>th</sup> ( <i>as</i> )	0.44382%	225	1,127	2,253	4,506	11,266	4,500	0.3	0.5	1.0	2.5			
50 <sup>th</sup> ( <i>like</i> )	0.24109%	415	2,074	4,148	8,296	20,739	4,500	0.5	0.9	1.8	4.6			
100 <sup>th</sup> ( <i>hear</i> )	0.10505%	952	4,759	9,519	19,038	47,595	4,500	1.1	2.1	4.2	10.6			
500 <sup>th</sup> ( <i>present</i> )	0.02477%	4,037	20,183	40,366	80,732 (4)	201,829	4,500	4.5	9.0	17.9	44.9			
1000 <sup>th</sup> ( <i>blood</i> )	0.01172%	8,533 (3)	42,665	85,329	170,658	426,645	10,000	4.3	8.5	17.1	42.7			
1500 <sup>th</sup> ( <i>intent</i> )	0.00677%	14,773	73,864	147,727	295,455	738,636	15,000	4.9	9.8	19.7	49.2			
2000 <sup>th</sup> ( <i>stumble</i> )	0.00432% (2)	23,103	115,625	231,250	462,500	1,156,250	20,000	5.8	11.6	23.1	57.8			
3000 <sup>th</sup> ( <i>sergeant</i> )	0.00211%	47,343	236,713	473,425	946,850	2,367,126	30,000	7.9	15.8	31.6	78.9			
5000 <sup>th</sup> ( <i>satellite</i> )	0.00076%	132,143	660,714	1,321,429	2,642,857	6,607,143	80,000	8.3	16.5	33.0	82.6			
10,000 <sup>th</sup> ( <i>relativity</i> )	0.00016%	632,000	3,164,474	6,328,947	12,657,895	31,644,733	80,000	39.6	79.1 (5)	158.2	395.6			

- Examples: (1) The most frequent word in English (*the*) covers 5.839% of any general English text (i.e. it occurs once in every 17 words).  
 (2) The 2000<sup>th</sup> most frequent word in English covers 0.00432% of any general English text (and occurs once every 23,103 words).  
 (3) To meet all the 1000 most frequent words in English once, you'd need to read 8,533 words.  
 (4) To meet all the 500 most frequent words in English 20 times, you'd need to read 80,732 words.  
 (5) To meet all the 10,000 most frequent words in English 10 times, you'd need to read 79.1 books that are 80,000 words long.

© R. Waring 2007

**Reading at 100 authentic words per minute it will require...**

**3 hours each day for 8.5 years**

**"Sorry, no holidays."**

**Reading at 100 graded reader words per minute it will require until...**

**Never**

**“Because graded readers are simplified.”**

# *Current Perspectives on Teaching the Four Skills*

---

**ELI HINKEL**

*Seattle University*

*Seattle, Washington, United States*

“A vast body of research has established that direct and explicit teaching represents the most effective and efficient means of teaching vocabulary, and incidental learning through reading leads to significantly lower rates of vocabulary retention”

Comprehension problems, at all ages, are directly associated with vocabulary naming-speed deficits; the lack of automaticity.

Ackerman, & Dykman (1993); Badian (1995, 1996); Bowers Steffy & Tate (1988); Denckla, & Rudel (1976); Grigorenko (1997); Lovett (1992, 1995); McBride, & Manis (1996)
